

GN 9330

Wireless freedom. Multitasking productivity.

The new GN 9330 wireless office headset is designed to enhance the way you work. Free yourself from your desk, and experience greater comfort and increased productivity.

- Up to 200 feet of wireless office freedom
- WiFi-friendly 1.9 GHz frequency with DECT 6.0 wireless technology
- Up to 9 hours talk time without recharging
- Noise-canceling microphone for reduced background noise
- Digital encryption for secure conversations
- Excellent sound quality
- Stylish and lightweight, at less than 1 oz
- Two wearing styles included: headband and earhook
- Exceptional ease of setup and use

The GN 9330 wireless office headset provides you with clear, natural sound. Noise-canceling microphone technology ensures your voice is always transmitted clearly, even when you're moving through noisy areas. An extensive 9-hour talk time (around-the-clock talk time with optional, hot-swappable interchangeable battery) ensures you're always ready for action, and a cutting-edge design enables you to do business in style.

Headsets have never been so easy to use. The GN 9330 headset connects effortlessly and quickly to your telephone. Intuitive headset controls make it easy to operate. And at less than an ounce, you'll forget you are even wearing it.

With a range of up to 200 feet, you can take your calls throughout your office. The GN 9330 allows you to escape the limitations set by your conventional telephone handset, providing hands-free mobility, all-day comfort and superb sound clarity.

GN 9330

Feature	Benefit
Truly wireless headset	Freedom from your telephone handset: hands-free mobility and increased productivity.
Range up to 200 feet	Get maximum value from your office area. Move hands-free and unhindered throughout the work day. You no longer need to be next to the phone to do business.
Talk time on a single charge: up to 9 hours	Conduct all your business without cutting calls short. A second, interchangeable battery is available as an accessory.
Standby-time: 43 hours	Your GN 9330 is always standing by ready for action.
Battery recharge time: 3 hours	Your headset is always ready for the next day's business.
Battery charge status	The four LEDs on the base keep you informed of your headset battery status at all times.
Noise-canceling microphone	Your voice is transmitted clearly, even in noisy environments.
Audio bandwidth of 200 Hz – 3.5 kHz	Full fiber optic sound with hands-free mobility.
Mute function	The mute button is easily accessed, preventing your voice from being transmitted when you need to consult with a colleague.
On-line indication	Easily recognized LED illumination informs others of your on-line status.
Volume control	Intuitive controls facilitate easy volume correction.
2 wearing styles: • On-the-ear (earhook) • Over-the-head (headband)	Choose the style that suits your personal preference.
Universal connectivity	Guaranteed compatibility with virtually all telephones.
Remote call answering/ending	The optional GN 1000 remote handset lifter, which mechanically lifts/lowers your telephone's handset, lets you answer/end calls while away from your desk.
PeakStop™ technology –max 118 dB SPL (RMS)	Protection against sudden, loud sound spikes from the telephone network.
64-bit digital encryption	The GN 9330 digitally encrypts your calls, giving you complete call security and conversation confidentiality.
